The tool trolleys for the professional use

Several of our clients use our tool trolleys in their production, because they can be easily and quickly adapted to the individual working conditions.

With hook systems it´s easy to organize huge quantities of tools, different materials stowed in the drawers and even the backside of the trolleys is used intensively.

With it's special equipment, our mobile PC trolley is also in action in many companies as a mobile workstation.

Everywhere data is entered, measurements were performed or disorders must be removed, the rolling computer workplace is the ideal assistant in your company.

Both trolley tipes are are powder-coated in blue RAL 5010 (casing) and white RAL 9002 (drawer).

The tool trolley with an integrated adjoining cabinet

Also available in other drawer combinations

Numerous widths of the drawers and three different depths of the cabinets offer all possibilities of complete storage systems with an optimal use of available space.

Both-side rubber lips provide clean storage surroundings, stainless steel handle bars an easy and sound handling.

Drawers with running wheels and the solid construction allow payloads of up to 500 kg per drawer.

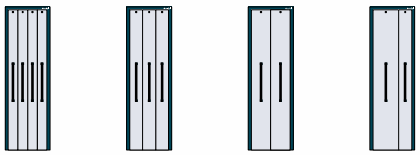
The overall height of the series V is 2,220, the clear usable height is 1,900 mm, the pattern of the boreholes for the variable mounting of the storage trays is 25 mm.

All Series V models are powder-coated in charcoal gray RAL 7021 (casing) and white RAL 9002 (drawers).

All models are easy to move with a lift truck when empty.

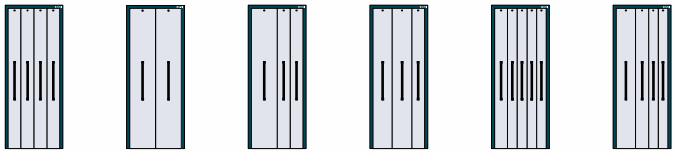
Cabinet versions X with 710 mm width

(VXK, VXS, VXT)



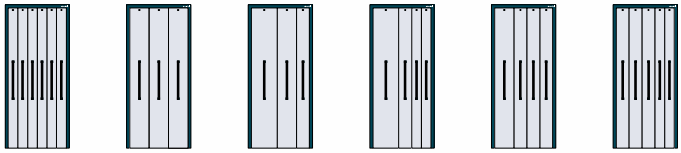
Cabinet versions S with 920 mm width

(VSK, VSS, VST)



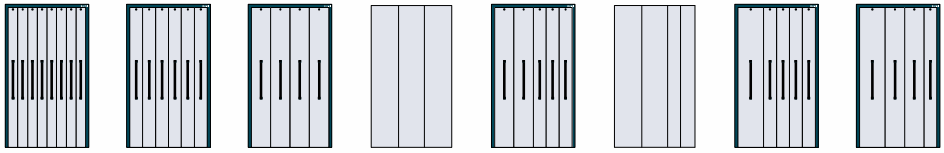
Cabinet versions M with 1,025 mm width

(VMK, VMS, VMT)



Cabinet versions L with 1.340 mm width

(VLK, VLS, VLT)



Identity code of measurements:

Depth (mm)

K = 765
S = 1.135
T = 1.490

Drawer slide with track rollers for an easy opening and closing

The travelling plastic wheels are also available in ESD-conform version

Cylinder lock for the separate interlocking of each drawer

The vertical storage cabinet for individual configuration

Choose your perfect one of our many variants in four different corpus widths and three different depths each.

24 different drawer combinations offer all possibilities to maximize the use of the cabinets volume.

Identity code of measurements:

Width (mm)	Depth (mm)
X = 710	**K** = 765
S= 920	**S**= 1,135
M = 1,025	**T**= 1,490
L= 1,340

including 11 storage trays each drawer

Set K1 – the vertical storage cabinet with boxes

Increase the efficiency of your storage system with our Set K. Host large quantities of small parts on eleven storage trays each drawer (included in delievery) in up to more than 700 boxes in just one cabinet!

The different cabinet models are fully equipped with stable, removable storage boxes No. 11 or No. 50.

The storage boxes can be labelled and due to their matching fit and extreme payloads they enable an optimal overview and maximum stability!

Box No. 11
Dimensions:
160 x 100 x 75

Box No. 50
Dimensions:
290 x 140 x 130

Set S – the vertical storage cabinet with bulk trays

Host large quantities of bulk material and small parts with a perfect overview, always clean and ready to hand in ten bulk trays each drawer (included in delievery) .

The solid bulk trays made of sheet steel can be divided by using partition plates which can be fitted easily at grid spacings of 25 mm. So the maximum and best use of current storage capacities is guarenteed.

Set KFZ – the vertical storage cabinet with perforated panels

With our Set KFZ you store your tools space-saving and clearly arranged.

The perforated panels of our Set KFZ can be used on both sides to offer total storage areas up to 37 m² at relatively low footprint!

Various hook selections for a professional storage of your tools can be found on page 48.

Tools and hooks are not included in delivery.

Sorting and moving with Apfel load carriers

With our load carriers you make the transfer of your individually combined goods easy, fast and save. Prepare all needed components for your projects on the spot to ensure more loading safety and a precise classification.

With the both-sided access to your goods you use the optimum of your loading area and commission many different products in the tightest of spaces.

TKP 774 load carrier

Completely premounted on a pallet, incl. 4 shelves and 50 storage boxes No. 13
Dim.: 773 w x 1,160 h x 1,100 d

Order No. 2332791

RSP 777 load carrier

Completely premounted on a pallet, incl. 7 shelves and 80 storage boxes No. 13
Dim.: 773 w x 1,950 h x 1,100 d

Order No. 2332795

The storage system for all operation processes

With optimal loading gauge for trucks

The wheeled shelf cabinets in in-line construction allow a functional and well-arranged system, also for large amounts of stock in your company.

Wheeled shelf cabinets

All RSW wheeled shelf cabinets are powder-coated gray RAL 7021 and equipped with:

2 x stainless steel handlebar
2 x fixed castors Ø 125 mm 2 x guided rollers Ø 125 mm with brakes

Dimensions:
773 w x 1,950 h x 1,100 t

Total payload 400 kg

Doors for assembly from both sides with snap closing hinges

Collection pan for the safe storage of liquids

RAT 773

Two-part door, with locking device, snap closing hinges

RAL 9002 powder-coated

Order No. 2330824

RAW 773

stainless steel collection pan for liquids, collection volume ca. 70 litres

690 w x 1,090 d x 100 h

Order No. 2330328

RSW 774

Basic model,
incl. 2 even shelves

Order No. 2332059

RSW 775

incl. 4 even shelves
(file folders not included)

Order No. 2332048

RSW 776

incl. 4 even shelves and
100 storage boxes No. 13

Order No. 2332060

RSW 777

incl. 7 even shelves and
80 storage boxes No. 13

Order No. 2332061

Storing, sorting and filling with Apfel transport wagons

The multifunctional storage and transport wagons for all kinds of material and equipment.

Compose your individual storage and logistic system according to your operational requirements thanks to various chassis.

Workshop trolleys

All WSW workshop trolleys are powder-coated gray RAL 7021 (corpus) white RAL 9002 (drawer) and equipped with:

1 x drawer one-way
1 x stainless steel handlebar
2 x fixed castors Ø 125 mm 2 x guided rollers Ø 125 mm with brakes

Dimensions:
580 w x 922 h x 922d (with attachment 1,265 h)

Total payload 400 kg

WSW 580

Basic model
incl. 1 even shelf
and rubber mat

Order No. 2332054

WSW 586 “storing“

incl. 2 sloped and 3 slim shelves, 20 storage boxes No. 13, 24 storage boxes No. 11

Order No. 2332055

Transport and Commissioning Wagons

All TKW commissioning wagons are powder-coated gray RAL 7021 and equipped with:

1 x stainless steel handlebar
2 x fixed castors Ø 125 mm 2 x guided rollers Ø 125 mm with brakes

Dimensions:
773 w x 1,160 h x 1,100 d

Total payload 400 kg

TKW 771

Basic model
incl. 2 even shelves

Order No. 2332056

TKW 772

incl. 2 even shelves
and 60 storage boxes No. 13

Order No. 2332057

TKW 774

incl. 4 even shelves
and 50 storage boxes No. 13

Order No. 2332058

Create tidiness at your company in no time at all and fill up your coolants clean, fast and safe

With the Apfel cleaning station your cleansing material is available all the time and everywhere. The practically shadowboards give a clear guidance for the stock positions. So everything is easy to find and always at its place. Four steering rollers with integrated brakes enhance a perfect handling and the highest security.

Also the Apfel coolants wagon with two smooth running block rollers and two steering rollers with brakes ensure easy operation and highest safety standards. Mix up to 800 liters of coolant directly where you need it – on the machine. If the canister is empty, it can be replaced easily.

RGS 5000
Cleaning station

Fully assembled including:

2 shelves KRB 4700
1 storage boxes No. 62
2 storage boxes No. 42
1 Waste basket of zinc sheet
2 brushes
1 scrubbing brush
1 dustpan
1 set shadowboards
1 board for cleaning products
4 steering rollers with brake

corpus powder-coated
gray RAL 7021.
Static payload max. 400 kg

Dim.: 512 w x 1,952 h x 772 d

Order No. 2332126

KMW 4000
Coolants wagon

Fully assembled including:

1 drawer
1 shelf
1 hose reel
1 mixing valve holder
1 board for cleaning products
1 paper towel holder
1 scrubbing brush
1 dustpan
1set shadowboards
2steering rollers with brake
2 block rollers
(without mixing valve system)

corpus powder-coated
gray RAL 7021.
Static payload max. 400 kg

Dim.: 482 w x 1,752 h x 382 d

Order No. 2331941

RGS 5000 „both-sides“

the same as above, but equipped on both sides (incl. 4 brushes, 2 scrubbing brushes, 2 dustpans, 2 sets shadowboards, 2 boards for cleaning products)

Order No. 2332183

Store your workshop trolleys clean and safe – The Apfel workshop trolley station

No matter how many workshop trolleys you want to store or which dimensions you need, we manufacture a station according to your specifications.

Lockable and due to its blinds with rubber lips nearly dust-free, this station is the perfect solution to store your workshop trolleys permanently safe and clean.

KRS Kanban shelf cabinets – Need-specific and flexible

Choose from diverse sizes, compositions and assemblies to set up your individual storage system fitting the material flow of your line production and profit from the highly efficient kanban principle.

Mount the storage shelves individually in a 50 mm pattern and tilt the shelves into diverse angles. Each KRS model comes with 4 easy-going guided rollers with brakes allowing trouble free transport and fixation at its place of usage.

WGH – the wall bracket for your welding workplace

The Apfel WGH wall bracket is the ideal basis to build a professional welding workplace where space is limited.

To built a perfect working environment, the wall holders can be individually equipped with extension arms of suitable length.

Talk to us, we create the welding workplace according to your specifications.

Tool module with integrated welding-machine holder

Accessories for the complete equipping of your work place

Complete your working environment with additional equipment modules to improve your efficiency with shorter processes and lower downtimes.

In addition to the spring-driven cable and hose reels, the tool module with integrated welding-machine holder and other technical accessories we offer a large selection of modules for a perfect organization of your work operations.

Spring-driven cable reel

Spring-driven hose reel

The AGA lever arm to mount on wall or girder

For the admission of all relevant supply lines and discharges. Incl. mounting plate and welding-kit, solid built and able to swivel in both directions.

AGA 1515

Lever arm with welding-kit
Length ca. 3 m (1,5 m + 1,5 m)
Order No. 2332483

Powder coating in all colour combinations (RAL)

In our modern plant we powder-coat even big parts with precise, consistent colouring and perfect structure.

Choose your desired colours from the whole RAL range and customize your equipment according to your company colours.

Realize your individual image and create an inviting and professional environment for the employees and visitors of your company.

For further information we place our services at your disposal.

Factory equipment in your special colours

For numerous renowned industrial companies from the widest possible variety of sectors, we produce storage systems and equipment according to their colour guidelines.

Create a pleasant and colour-accentuated working environment in your company.

Individual fitting to your machines and production facilities, we manufacture the equipment components in your desired colour combination at a low extra charge.

Realize a uniform overall appearance that reflects the professional standard of your company even in your workrooms.

Storage system for broaches with swivelling lifting device

Optimal utilisation of space and short access times through a drawer system for the storage of centering plates, integrated in the base frame of the machine

Customized systems with optimal product benefits

For many of our clients we manufacture transport systems, storage solutions and logistic systems according to their facility-specific requirements.

No matter if the reduction of access times, the optimization of space or the material structure due to specific requirements is in focus – with our individually manufactured equipment we satisfy thehighest demands in sustainable and proper function, maximum safety and tailor-made engineering.

Because of our high vertical range of manufacture in metal processing and surface treatment, we produce nearly all projects of our clients in-house and achieve greater efficiency due to shortened workflows.

If large-dimension complete systems of carrier elements, the fitting components of a high-bay storage or the optimized layout for the partitioning of lift trays – we design, construct and realize compatible storage systems and commissioning solutions according to your operating processes, made to match the size of your business.

Shelf system with drawers for the storage of pharmaceutical products under deep-freeze conditions

Individual solutions for your special requirements

Take advantage of our great experience and practical approach to improve your workflow, to increase efficiency and to expand the storage capacities of your entire company.

Lift tray for space-optimized storage of cutting tools

Transport wagon for the storage of precision tools

Cabinet system with vertical drawers and sorting aid to store medium format metal sheets

The ideal dimension for your storage purposes and operations

Whether you want to store enormous quantities of filigree small parts or large and heavy tools – our special solutions store your working materials always perfect.

We develop your storage system according to your needs and we built your product with highest standards of safety, function and lifetime.

The workplace of the future

Get started into a new age of factory equipment with the multifunctional workstation concept by Apfel that ensures a production process of rapid, unhindered access and that prevents useless secondary processing times.

Absolutely free of any loose hoses or cables on the floor and completely fed by overhead lever arms the Apfel workstation concept makes your welding workplaces and assembly sites appreciably tidy, fast and save.

Supply electritcity, compressed air, gas or any other operating material via overhead lever arms directly to your workstation and avoid safety risks like stumbling and tripping on cables or hoses left lying around.
